SUBJECT: SPECIAL EDUCATION PLACEMENT

Appropriate placement of a student with disabilities in the BOCES Special Education Division will be determined upon the recommendation of the local public school district , and upon confirmation by the Special Education Intake Coordinator that the BOCES program meets the demands of the student's individual education plan.

If mainstreaming requirements for certain pupils assigned to the BOCES Special Education Division are specified, a cooperative plan for implementation and continuous monitoring of the student's status and progress will be developed between Special Education and the administrator of the program in which the mainstreaming occurs.
