Field Trips

Policy # 6320, 3.2

POLICY

1996 6320

Students

SUBJECT: FIELD TRIPS

Field trips that add to learning experiences of students are encouraged and may be permitted as long as the experience provided is proportionate to the time and expense required.

Overnight field trips ordinarily require prior Board approval. However, the District Superintendent may approve overnight field trips if he determines that awaiting Board approval would jeopardize the overnight field trip or would hinder the opportunity for administration, chaperones, students or student's families to plan for the field trip. In the event that the District Superintendent approves an overnight field trip, he will notify the Board at the next regular meeting of the Board.

Field trips that do not include overnight lodging may be approved by the District Superintendent or his designee.

Parental permission slips are to be filed for each student participating in any field trip.
