Students

SUBJECT: ACCIDENTS

It is the intent and policy of the Board that the BOCES will always act to preserve a healthy and safe environment for students, and that parents will be kept abreast of all situations or events that are contradictory to that intent.

Any and all accidents or injuries shall be immediately reported to the Building Principal by the student's supervisor, or in the absence of the supervisor, by anyone knowing of such accident or injury.

If, in the judgment of the Building Principal, the injury or accident threatens the health or safety of the student, or if emergency treatment is required, the Principal shall cause all reasonable efforts to be taken to notify the parent or guardian of the student, and the Principal of the home district of the student.

Any and all necessary written reports relative to the injury or accident shall be completed and filed with the Building Principal prior to the end of the school day in which the accident or injury occurred.
